

Afelio is recruiting:

Java Developer Medior-Senior (M/F)

Who are we?

Afelio is a Liège company specialising in the development of web and mobile applications. Afelio views the development of these applications as a profession in its own right that requires an excellent understanding not only of new technologies and ergonomics but also of the impact that our solutions will have on users.

Founded in July 2013, today Afelio is a major player not only in consulting but also in the design and implementation of IT solutions. After 4 years, Afelio has about 60 employees.

Who are we looking for?

Holder of a Bachelors or Masters degree in computer science or, whatever your training is, able to back up proven experience of at least 4 years in one or more of the following fields:

- JAVA/J2EE developments (Hibernate/Spring/JSF)
- Defining of SOA architecture
 - Implementation of Web Service (SOAP, Rest, JSON, XML)
 - Good understanding of security aspects relating to SOA architecture
- WEB developments
 - Knowledge of Javascript, AJAX, JQuery
- ESB
- Continual integration (SVN, Jenkins,...)
- Scrum
- UML

Capable of assessing functional needs and proposing appropriate technical solutions. You can determine the time required to implement these solutions. You can integrate your developments with existing software components. You are concerned about the ergonomomy and user-friendliness of the solutions proposed. You are able to draw up documentation relating to the product and guarantee maintenance through dialogue with our customers.

What do we offer?

We offer you the opportunity to join a company with high growth potential belonging to the NRB Group, one of the major players in the Belgian ICT market. You will join a young, dynamic and friendly team and will have an attractive salary with many secondary benefits.

Send us your application by e-mail to jobs@afelio.be, we will be delighted to reply.
