

Afelio is recruiting:

.Net Developer (H/F)

Who are we?

Afelio is a Liège-based company specialised in the development of web and mobile applications. Afelio sees the development of these applications as a business in its own right that requires an excellent understanding not only of new technologies and ergonomics but also of the impact our solutions will have on users.

Founded in July 2013, Afelio is today a major player both in consulting and in the design and implementation of IT solutions. After 4 years, Afelio now has sixty or so employees.

Who are we looking for?

You have a bachelor's or master's degree in computer science and can justify your knowledge of the following areas:

- **.Net developments**
 - Mastery of C# language (7)
 - Specific experience in the following libraries and frameworks: Entity Framework, ASP.Net Core
 - Knowledge of: SQL, SQL Server, Visual Studio
- Defining of **SOA** architecture
 - Implementation of Web Service (SOAP, Rest, JSON, XML)
 - Good understanding of security aspects relating to SOA architecture
- Any proven experience in the following methodologies and environments is a plus
 - IT in banking and insurance fields
 - Enterprise Service Bus
 - Layered service architecture
 - Experience in UML-based technical analysis (Enterprise Architect)
 - Multi-team Agile development environment
 - Unit Testing, Technical Integration Test, Test Driven Development
 - Configuration management, source management (GIT)
 - Continuous integration

What do we propose?

We offer you the chance to join a company with a high growth potential that is part of the NRB Group, one of the big players in the Belgian ICT market. You will be part of a young, dynamic and friendly team and you will have an attractive salary accompanied by a number of extra-legal benefits.

Send us your application by email to jobs@afelio.be, we will be delighted to reply to you.
