

## Afelio is recruiting :

### Front-End Developer - Integrator (h/f)

#### Front-end developer - Integrator

##### Description :

As front-end developer/Integrator, you are at the crossroads between the thoroughness of the developer and the creativity of the designer. You are able to read the designer's intentions in order to integrate them with HTML/CSS/Javascript technologies. You are responsible for meeting standards and for the compatibility of the interfaces with the devices and browsers on the market. Always up-to-the-minute on new features, you are continuously improving your internal production tools.

##### Responsibilities :

- To integrate the design CSS provided, adhering at all times to the customer's wishes, the guidelines provided by the UX analysis and the designer's vision.
- To be the guarantor of the "pixel perfect" requirement within the developer's team.
- To participate in the Javascript development of the functionalities.
- To take the company's UI Kit forward.

##### Skills :

- Perfect understanding of HTML3/CSS3 and mobile issues.
- Perfect knowledge of the SCSS and DRY approaches.
- Good knowledge of Javascript and of the Angular framework.
- Good communication and organisational skills.
- Demonstrated experience in the field.

We offer you the chance to join a company with a high growth potential that is part of the NRB Group, one of the big players in the Belgian ICT market. You will be part of a young, dynamic and friendly team and you will have an attractive salary accompanied by a number of extra-legal benefits.

Send us your application by email to [jobs@afelio.be](mailto:jobs@afelio.be), we will be delighted to reply to you.
